

MOLLEGENERATOR.COM • PARTNER PROGRAM

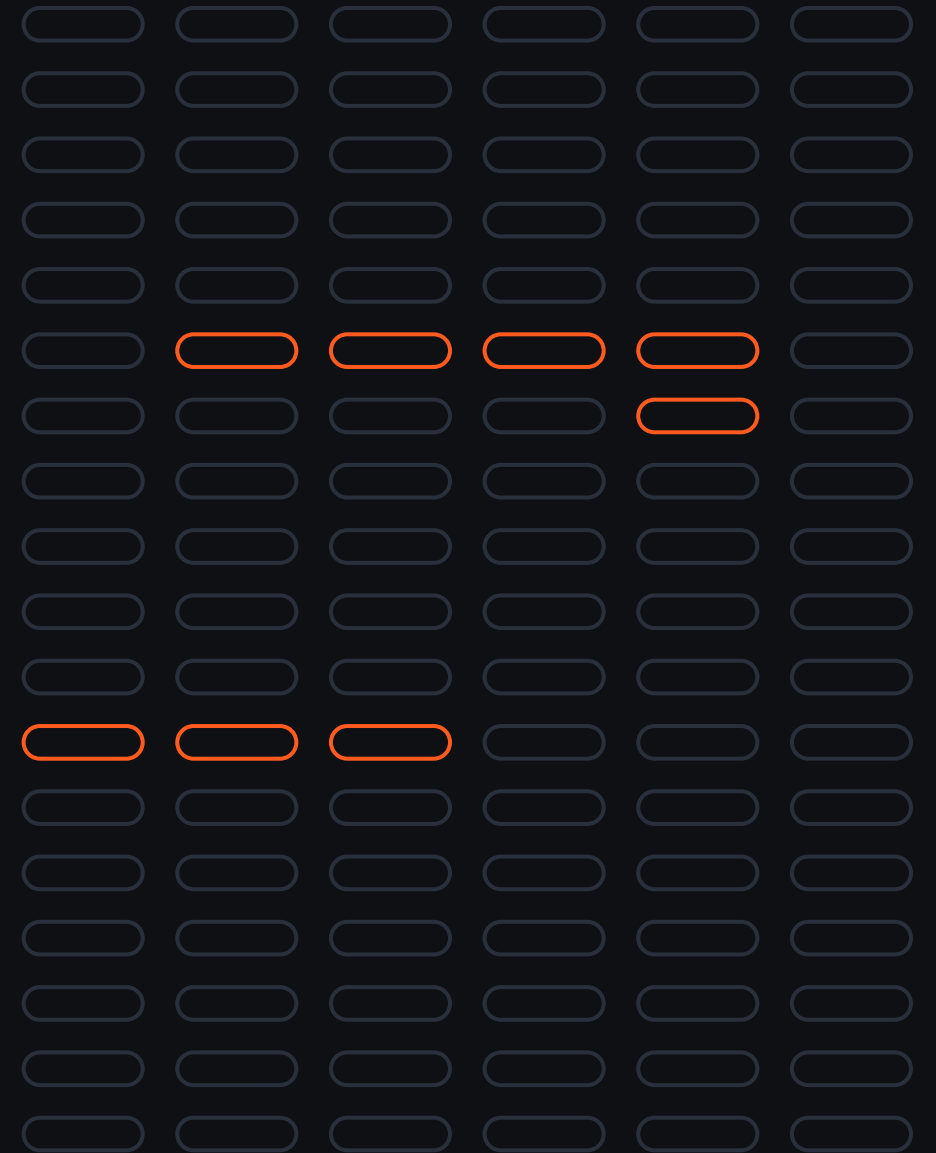

YOUR OWN MOLLE PANEL SITE IN ONE DAY

A ready catalog, an online configurator and orders in your Telegram — under your name, with your materials. No development.

from \$49

per year • no commission

For laser-cutting shops • case makers • vehicle
outfitters • gear stores

WHAT IS MOLLEGENERATOR.COM

A MOLLE PANEL PLATFORM THAT ALREADY WORKS

300+

SEO pages UA / EN

60+

case and vehicle models with dimensions

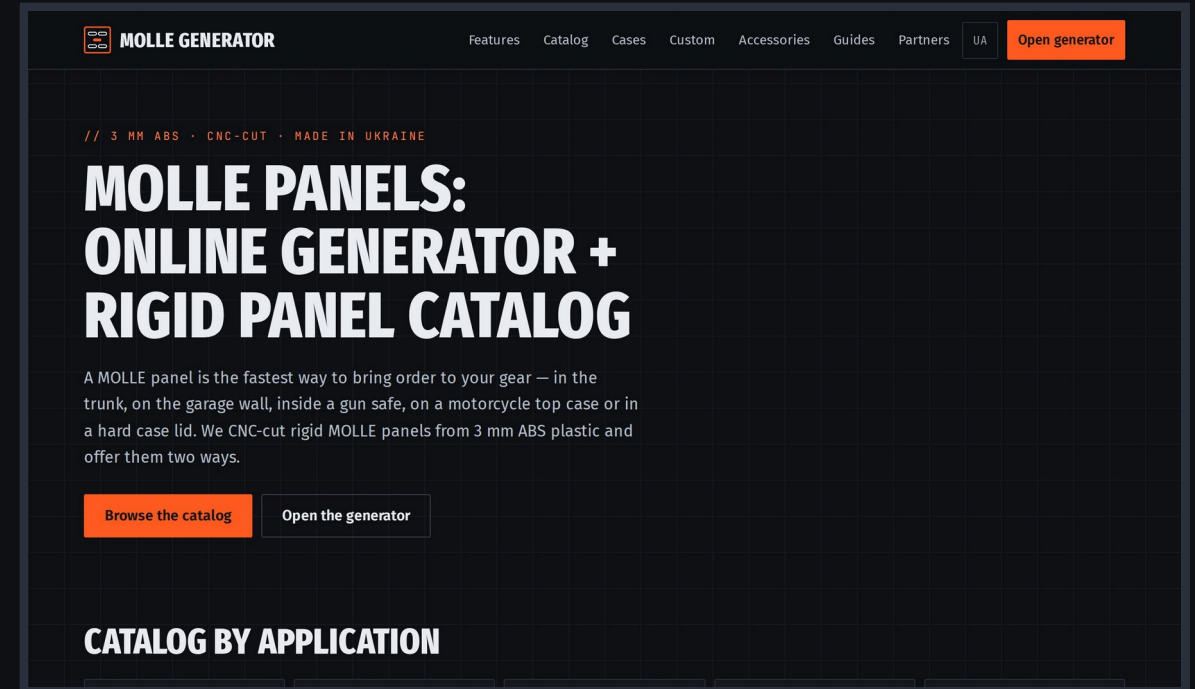

24

base panels + model-specific panels

DXF

a cut-ready file in a minute

The online generator: the customer sets the size, the number of cells, mounting holes (including MD173) and sees the price instantly. Catalog: vehicles, Pelican / Nanuk / SKB / MilitarycaseUA cases, safes, garage, medical.

mollegenerator.com — home page

CUSTOMERS ASK FOR MOLLE — AND THERE IS NOTHING TO SELL

✗ No configurator

The customer wants a panel “for my trunk”. Without a tool it is messages, hand sketches and a manual drawing for every order.

✗ No catalog

Panels for specific cases and vehicles need measurements and a size database. Building one yourself takes months.

✗ Development doesn't pay off

A site + configurator + DXF export + pricing is 2–4 months of developer work for a single product.

✗ Pricing by hand

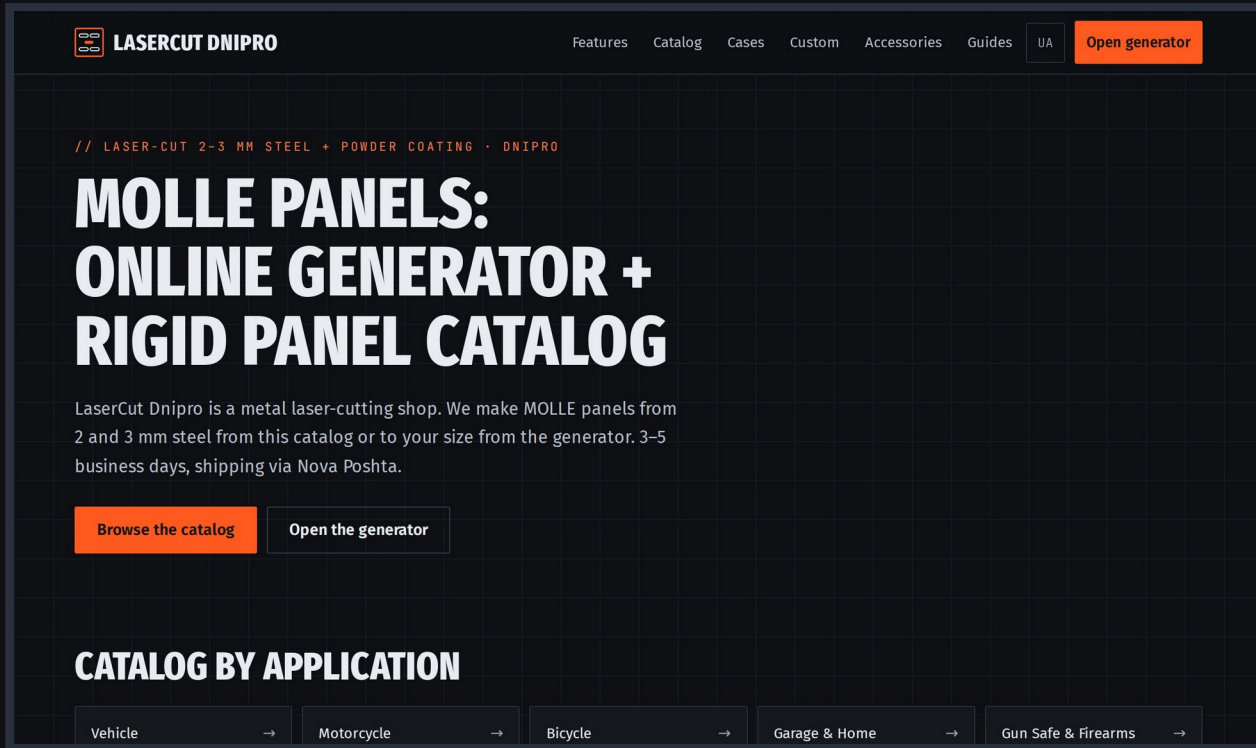

Every request is a manual estimate of area, cutting and coating. The customer waits, some leave.

**INSTEAD — A READY
PLATFORM UNDER
YOUR NAME.**

THE SOLUTION

NAME.MOLLEGENERATOR.COM — YOUR OWN SITE

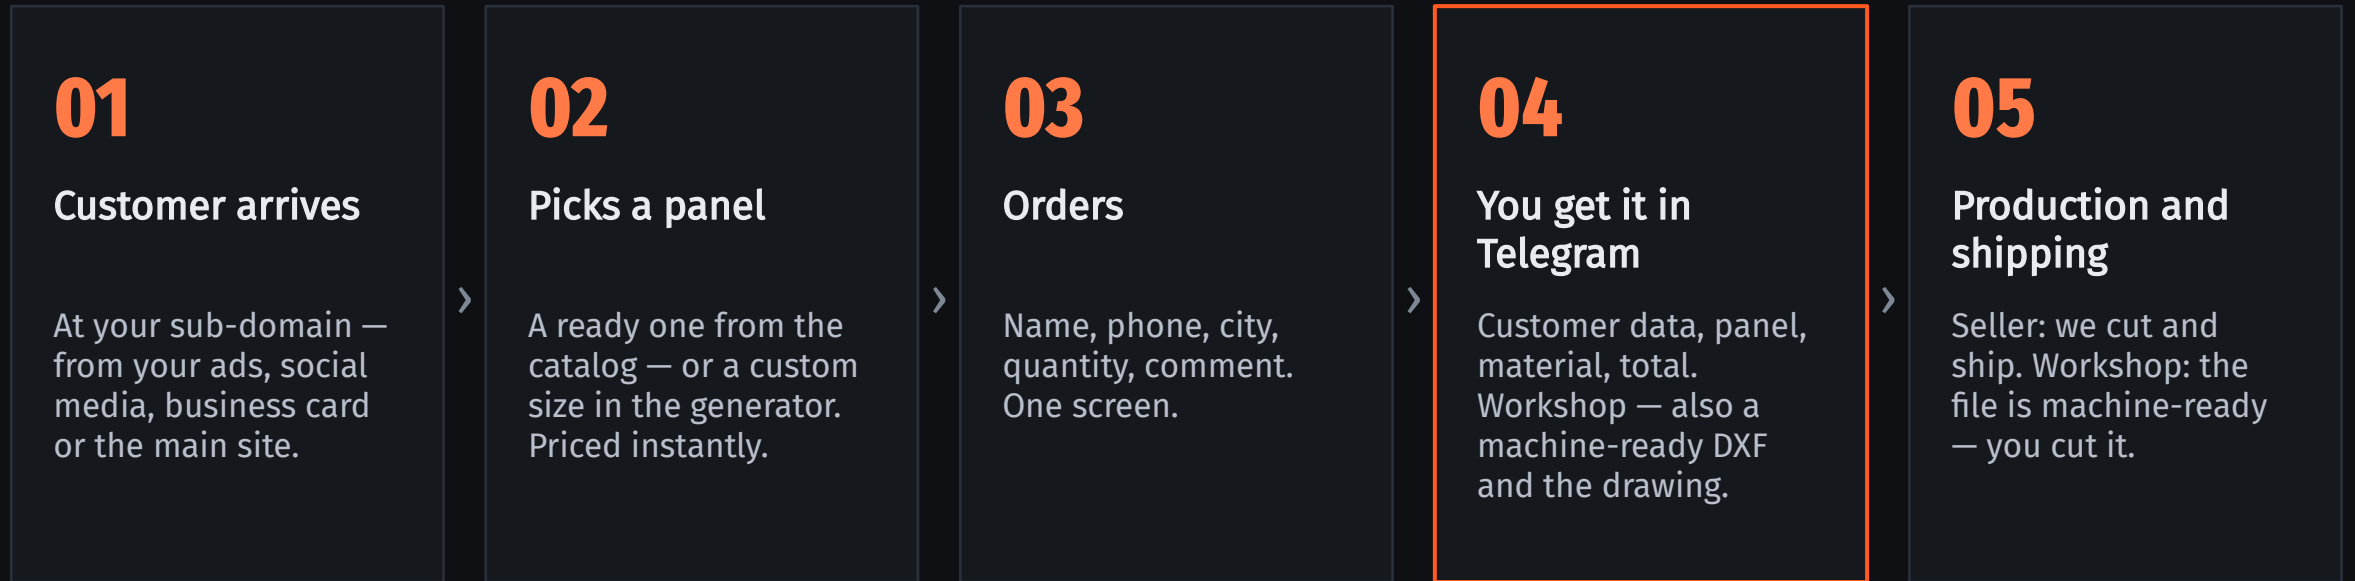

Example: `partner.mollegenerator.com` — demo partner LaserCut Dnipro

- Your name in the header and titles, your contacts in the footer, your intro on the home page
- No mention of other makers — the site looks like yours
- The full panel catalog and the generator — everything on the main site
- Customers only see the materials you make
- Orders from the “Order” button go straight to your Telegram

Technically: the same site, rewritten on the fly at the Cloudflare level. Your pages are hidden from search engines (except the home page) — you don't compete with the main site in search.

FIVE STEPS FROM REQUEST TO SHIPMENT

Panel designs are the platform's base: 24 base panels + panels for specific case and vehicle models. Need one that isn't there? Suggest it from the generator, we add it.

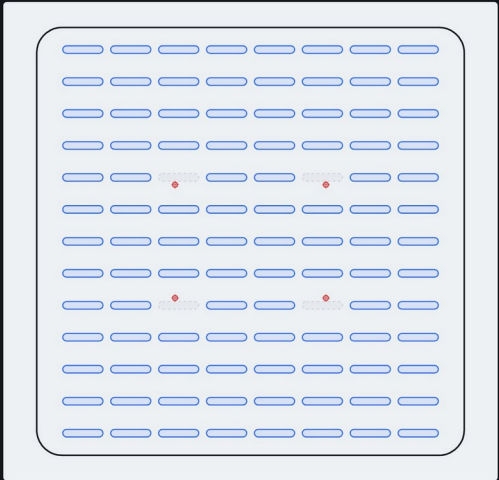

WHAT THE CUSTOMER SEES

PANEL, PRICE, ORDER — NO BACK-AND-FORTH

MOLLE GENERATOR

WHAT THE PARTNER GETS

ORDERS, NOT DEVELOPMENT

Orders in Telegram

Seller — the order data, we produce.
Workshop — the full kit: DXF, drawing, spec.

Only your products

Turn on what you make: 2 mm steel, 3 mm steel, aluminium, ABS, 3D printing.

Your prices

Price comes from geometry; your multiplier stays within an agreed corridor.

A design library

Panels for Pelican, Nanuk, MilitarycaseUA cases and vehicles — with verified sizes.

Zero development

Site, configurator, DXF, pricing, analytics — already there, updated centrally.

Launch in a day

Name, contacts, Telegram and a list of materials — and the sub-domain is live.

WHO IT IS FOR

WHO THE PARTNERSHIP FITS

01

Laser cutting

2–3 mm steel, powder coating, aluminium. Panels are a steady, repeatable product.

02

Case makers

A lid panel as an upsell with every case. Your model may already be in the catalog.

03

Vehicle outfitters, overlanding

Panels for trunks, seat backs, doors. You install — the platform prices and draws.

04

Gear stores

A panel is a reason to sell pouches. The customer picks a size, you sell the kit.

05

3D printing

Panel accessories: holders, clips, mounts. A separate product type in the catalog.

06

Safe and top-case dealers

MOLLE for a safe door or a motorcycle top case — ready designs for your models.

TERMS

SIMPLE: ONE YEARLY FEE, NO COMMISSION

Your own catalog site

from \$49

per year

Seller — \$49: a storefront with the catalog and generator, your prices, orders in your Telegram. Workshop — \$199: + online payment through the platform and Generator Pro. No commission on orders.

Makers — paid per panel

No site needed: jobs in Telegram 1–2 times a week, a ready DXF, a fixed price, paid on shipment.

Case makers — free

Send us the product — we measure it, make test panels, take photos and send it back.

Designers — paid

For accepted designs with a mounting guide and for 3D accessory models.

Integrators — \$400 + \$30 / month

All models and guides, a profile on the map, dealer price -25–35%. No territories — the customer chooses.

Payment and contract

Site — public offer, production — subcontract after a test order, designs — an act per design.

START IN ONE DAY

FOUR THINGS TO LAUNCH YOUR SITE

- 1 Name and city
- 2 Contacts: phone, e-mail, Telegram
- 3 A Telegram chat for incoming orders
- 4 The list of materials you make
